

Getting Started in Your Neighbourhood

Sometimes the level of need around us can feel overwhelming. We know as Christians we are called to act, but where do we start?

This is a series of **2 practical workshops** designed to give you and others from **your church time to step back and consider:**

- *What does poverty/isolation look like where you live?*
- *What gifts, skills and strengths do you already have in your church?*
 - *What is already happening locally?*
 - *And how can you church get involved?*

Using practical tools and drawing on stories from other places, come to explore these questions and consider what you have the potential to do.

Workshop 1: Monday 4th November, 7 - 9pm
St Andrew's Church, Chesnut Grove, Nottingham, NG3 5AD
Workshop 2:TBC (depending on availability)
